The Grower's Handbook by David Robinson

"The Garden Sage" David Robinson is a true cash crop professional that has been guiding gardeners to their greatest successes for over 15 years. Working full time on the retail floors of busy hydroponic stores in British Columbia has allowed the Garden Sage to deal with an incalculable variance of challenging situations.

With years of professional teaching experience under his belt he knows exactly what you need to know to increase your yields. Highly sought out for his valued consultation he has improved countless yields and directed the set up of thousands of gardens. He has been told many times that the information he has imparted in less than ten minutes has tremendously boosted yield resulting in increased profits.

"If you want to grow indoors, someday, you will probably go into a hydroponic store to make purchases for your garden and I am the guy that you would want to find on the other side of the counter. Now, I can't be there to serve all of you, but I can give you my special understanding."

- David Robinson

ODOUR CONTROL

ONA - A&B

Two step hydroponics cleaning system.

TrolMaster

THE FUTURE OF INTELLIGENT FARMING

TrolMaster Agro Instruments Co., Ltd. is an agriculture technology company, offering next generation environmental controllers in the horticultural market. They're platform offers remote access applications that enable our customers to manage every aspect of their grow facilities from anywhere anytime.

"We listen to growers. We build products for growers"

-TrolMaster Agro Instruments Co., Ltd.

Exclusively distributed by GreenPlanet Wholesale

Trolmaster - Aqua-X Irrigation Control System

The NFS-1 is the brain of the Aqua-X system. It comes with a water detector WD-1 for leaking alert and watering confirmation.

Sku	
TM-NFS-1	

TrolMaster - Carbon-X CO₂ Alarm System

The TrolMaster Carbon-X system provides critical monitoring of CO2 levels for up to 13 separate zones / rooms. The system can have both high level (up to 30,000ppm) alerts, as well as low level (5,000ppm) alerts.

Sku	
TM-CDA-1	

TrolMaster - Hydro-X Environment Control System

The HCS-1 is the brain of the Hydro-X system. It comes with a 3-in-1 Temp/Humid/Photocell sensor.

Sku	
TM-HCS-1	

TrolMaster - Hydro-X Pro 4 in 1 Controller With Cable

TrolMaster revolutionized environmental controller technology when it introduced the Hydro-X. The Hydro-X Pro continues the revolution with a 10' touch-screen and a web-based software.

Sku
TM-HCS-1

You can find the full range of Trolmaster products and accessories on our website.

ENVIRONMENTAL CONTROLLERS - ACCESSORIES

TrolMaster - Aqua-X Cables

The TrolMaster Aqua-X control Boards.

COMPLETE LIGHT FIXTURES

Gavita - Pro E-Series Slim lIne 1000e DE 208-240V Light Fixture

The Gavita Slim Line series is part of the 'professional' line of fixtures. Designed especially for grow rooms, our professional fixtures suit flexible and fixed installations.

Sku	
GAV-906097	

Gavita - Pro E-Series 6/750e DE Flex 120-240V

The 'e' in 'e-series' stands for external control. These fixtures can be controlled centrally by a Gavita Master controller. This replaces the often cumbersome installation with contractors and clocks, and adds safety features such as automatic dimming of your lights at high temperatures and even a safety shutdown.

Sku
GAV-906087

Nanolux - OG DE-HPS/MH 1000W 120-240V Light Fixture with HPS LAMP

The Nanolux OG DE1000W HPS is fan-cooled exactly like the bestselling OG1000W. By replacing the aluminum enclosure with a durable powder coated steel enclosure, Nanolux were able to make a complete DE fixture that weighs less and costs less that the original DE1000W.

Optic Foliar - Elium Concentrat

Elium will treat PM and boost the plants overall health. The dual action of Elium immediately combats and eradicates PM on the leaves while also boosting the plants overall health to help prevent and combat PM naturally. Utilize Elium concentrate to prevent and combat problems in any stage of growth from cuttings to late stages of flower.

High Yield Products - LockDown Pads Round

LockDown Pads are yellow hydroponic plastic coated on one side with specially formulated, water resistant adhesive. There is no odour, no noxious chemicals that can affect the air, soil, rock, or water. LockDown Pad's are designed to cover the base of your plant. Protects your plant from debris entering your growing medium, helps stop molds/algae, and reduces watering. Use these round LockDown pads to keep tabs on pest, bug and mites in your grow.
